

Sponsorship Overview

BACKGROUND

EnergyTech is a nationally recognized event held annually in Cleveland, Ohio. Initiated in 2009 as a regional conference by the newly formed INCOSE chapter of Northeast Ohio, and accelerated by IEEE and CWRU in 2011, it has further evolved to national status through support and cooperation of NASA, InfraGard/FBI, IEEE, INCOSE, along with various corporate entities and universities. This forum is committed to the principle that complex systems such as the nation's electrical grid, aeronautics sector requires a comprehensive understanding and disciplined methodology to address the life-cycle challenges and pursue improvements.

Now in its seventh year, EnergyTech continues an evolutionary path by providing value to a diverse mix of stakeholders, including energy sector companies, education and research institutions, government officials and policy makers, and related entities.

OUR GOAL

The EnergyTech Forum & Conference is an organized annual gathering of highly competent engineers and professionals in the field of Energy Systems, Aerospace, Critical Infrastructure, Security, Policy, and Governance. The conference goal is to focus on a systems approach combined with relevant technology advancements in the energy sector as well as critical infrastructure for dealing with these complex systems challenges.

We offer 4 levels of sponsor participation, and welcome the discussion to create a custom package to meet your brand building, marketing or charitable objectives, including on-site signage, presence on-site, title of proprietary area or program, access to contacts, rights to use logos/marks, and your logo on all collateral
