Take a Giant Leap! Or just one small step …

The INCOSE Great Lakes Regional Conference (GLRC) is an annual INCOSE Systems Engineering event organized by members of the 12 Chapters of the INCOSE Great Lakes Region. This year's event is hosted by the INCOSE Cleveland-Northern Ohio (CNO) Chapter and will be held at the Cleveland I-X Center, adjacent to NASA's Glenn Research Center, and in on-site co-location with the 2019 EnergyTech Conference and "Spirit of Innovation" Expo, and the 2019 Fall Information Security Summit (ISS).

Please join us in helping advance the practice of systems engineering and in special celebration of the 50th Anniversary of the Apollo 11 moon landing.
